Index of Subjects

Adipocytes
Protein restriction during early development enhances insulin responsiveness but selectively impairs sensitivity to insulin at low concentrations in white adipose tissue during a later pregnancy
81, 481, 1999

Adipose tissue
Effect of mixed meal ingestion on fuel utilization in the whole body and in superficial and deep forearm tissues
81, 373, 1999

Africa
Iron overload in Sub-Saharan Africa: to what extent is it a public health problem?
81, 427, 1999

Amino acids
Influence of peptides and amino acids on fermentation rate and *de novo* synthesis of amino acids by mixed micro-organisms from the sheep rumen
81, 307, 1999

Ammonia
Influence of peptides and amino acids on fermentation rate and *de novo* synthesis of amino acids by mixed micro-organisms from the sheep rumen
81, 307, 1999

Antioxidants
Effect of parsley (*Petroselinum crispum*) intake on urinary apigenin excretion, blood antioxidant enzymes and biomarkers for oxidative stress in human subjects
81, 447, 1999

Apigenin
Effect of parsley (*Petroselinum crispum*) intake on urinary apigenin excretion, blood antioxidant enzymes and biomarkers for oxidative stress in human subjects
81, 447, 1999

Apolipoproteins
Lack of influence of test meal fatty acid composition on the contribution of intestinally-derived lipoproteins to postprandial lipaemia
81, 51, 1999

Apoptosis
Accelerated thymus involution in magnesiuim-deficient rats is related to enhanced apoptosis and sensitivity to oxidative stress
81, 405, 1999

Atherosclerosis
Dietary conjugated linoleic acids promote fatty streak formation in the C57BL/6 mouse atherosclerosis model
81, 251, 1999

Autoimmunity
Different dietary fats influence serum and tissue lipids and anti-cardiolipin antibody levels in autoimmune-prone NZB/W F1 mice
81, 331, 1999

Bile acids
Dietary rhubarb (*Rheum rhaponticum*) stalk fibre stimulates cholesterol 7α-hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice
81, 65, 1999

Blood pressure
Blood pressure and calcium intake are related to bone density in adult males
81, 383, 1999

Bone mass
Blood pressure and calciumintake are related to bone density in adult males
81, 383, 1999

81, 139, 1999

Short communications
Physical exercise affects the lipid profile of mitochondrial membranes in rats fed with virgin olive oil or sunflower oil
81, 21, 1999

Reproducibility of resting metabolic rate measurement in children
81, 435, 1999

Simmondsin
Effects of simmondsin on food intake, growth, and metabolic variables in lean (+/?) and obese (*fa/fa*) Zucker rats
81, 159, 1999

Skeletal integrity
Hypovitaminosis D in an Italian population of healthy subjects and hospitalized patients
81, 133, 1999

Skeletal muscle
Physical exercise affects the lipid profile of mitochondrial membranes in rats fed with virgin olive oil or sunflower oil (Short communication)
81, 21, 1999

Translocation of protein kinase C isoforms in rat muscle in response to fasting and refeeding
81, 153, 1999

Skin
Effect of mixed meal ingestion on fuel utilization in the whole body and in superficial and deep forearm tissues
81, 373, 1999

Social status
Healthy dietary habits in relation to social determinants and lifestyle factors
81, 211, 1999

Special Report
The European Research and Technological Development Programmes concerning food, nutrition and health
81, 113, 1999

Spectrophotometry
Purine quantification in digesta from ruminants by spectrophotometric and HPLC methods (Technical Report)
81, 107, 1999

Splanchnic tissues
The effect of intake on protein metabolism across splanchnic tissues in growing beef steers
81, 457, 1999

Stable isotopes
Effect of fatty acid chain length and saturation on the gastrointestinal handling and metabolic disposal of dietary fatty acids in women
81, 37, 1999

Surgery
The effect of malnutrition on the metabolic response to surgery
81, 115, 1999

Systemic lupus erythematosus
Different dietary fats influence serum and tissue lipids and anticardiolipin antibody levels in autoimmune-prone NZB/W F1 mice
81, 331, 1999

Tea
Inhibition of non-haem iron absorption in man by polyphenolic-containing beverages
81, 289, 1999

Thymus involution
Accelerated thymus involution in magnesiuim-deficient rats is related to enhanced apoptosis and sensitivity to oxidative stress
81, 405, 1999

Triacylglycerols
The effect of low and moderate fat intakes on the postprandial lipaemic and hormonal responses in healthy volunteers
81, 25, 1999

Tropical forage diet
Methane production and energy partition of cattle in the tropics
81, 227, 1999

Under reporters
Energy under-reporting in Swedish and Irish dietary surveys: implications for food-based dietary guidelines
81, S127, 1999

Urine
Effect of parsley (*Petroselinum crispum*) intake on urinary apigenin excretion, blood antioxidant enzymes and biomarkers for oxidative stress in human subjects
81, 447, 1999

Vascular function
Maternal food restriction in the second half of pregnancy affects vascular function but not blood pressure of rat female offspring
81, 73, 1999

Vegetables
Dietary nitrate in man: friend or foe?
81, 349, 1999

Vegetarians
Increased risk of iodine deficiency with vegetarian nutrition
81, 45, 1999

Vitamin B_6
Non-nutritional uses of vitamin B_6
81, 7, 1999

Plasma pyridoxal phosphate and pyridoxic acid and their relationship to plasma homocysteine in a representative sample of British men and women aged 65 years and over
81, 191, 1999

Vitamin D
Hypovitaminosis D in an Italian population of healthy subjects and hospitalized patients
81, 133, 1999

Volatile fatty acids
Effect of glucose supply on fasting nitrogen excretion and effect of level and type of volatile fatty acid infusion on response to protein infusion in cattle
81, 389, 1999
